

An Investment opportunity....

It's been some time since we've seen an economic opportunity that guarantees certain success. The St. Paul's wine tasting event, however, is one of those rare occasions that will assure a rather extraordinary return on investment. We are pleased to have with us one of North Carolina's most knowledgable wine specialists who

will introduce us to a selection of six to seven moderately priced wines that are as good, or better, than wines costing twice the price. Not only will he allow us to taste the difference but will also direct us where to buy. We hope you will mark your calendar for Thursday, March 18th at 7 PM and bring your friends for a truly memorable experience.

All proceeds from this Brotherhood of St. Andrews event will go to the balanced budget challenge gift campaign
